

About Rightfiber: Built for your success

Deep Roots. Modern Scale.

Rightfiber brings together the combined 100+ year legacies of Great Plains Communications and Ritter Communications into a unified powerhouse built to support your mission. By uniting our talent, infrastructure, and values, we provide enterprise-grade capabilities backed by the dedicated, local support of a trusted partner who lives and works in your community.

Right for Your Business

Your daily operations demand uninterrupted performance. Rightfiber delivers 99.99% network reliability across our expansive 28,000-mile fiber network, providing symmetrical speeds, ultra-low latency, and intelligent routing. Supported by 24/7/365 local support teams, we deliver custom, worry-free connectivity tailored specifically to your operational goals.

Right for Your Community

When your community prospers, your organization prospers. Passing over 300,000 homes and businesses across 400+ communities in 20 states, Rightfiber deeply invests in local infrastructure, powers anchor institutions, and drives local economic growth.

Right for Your Future

As technology evolves, your digital infrastructure must stay ahead. Rightfiber handles the complexity of future-proofing your network, integrating symmetrical fiber, advanced cybersecurity, and scalable Cloud solutions, so you have the freedom to focus on growing your core operations today and tomorrow.
